

Muhammad Naveed

Full Stack Developer & Odoo Implemtor

Full Stack Web Developer & Odoo Specialist | 5+ Years Experience

Portfolio: View my complete portfolio at <https://naveed.tahatradrs.us/> featuring web applications, e-commerce solutions, and enterprise systems built with modern technologies.

PROFESSIONAL SUMMARY

Full Stack Web Developer with 5+ years of experience in building scalable web applications using modern technologies. Expertise in Python, PHP Laravel, Odoo ERP development, and JavaScript frameworks. Proven track record of delivering robust solutions for diverse industries including real estate, e-commerce, and enterprise systems. Combines strong technical skills with business acumen to develop efficient, user-centric applications. Specialized in Odoo implementation and customization to streamline business processes.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer & Odoo Specialist

Oracle Digital IT Solution | Dubai, UAE | Dec 2023 – Feb 2025

- Designed and developed enterprise-level web applications using Python Django, PHP Laravel, and Odoo ERP framework
- Customized Odoo modules for Sales, Inventory, Accounting, and CRM to align with client-specific business workflows
- Implemented microservices architecture for scalable application deployment across multiple cloud platforms (AWS)
- Integrated third-party APIs including payment gateways (Stripe, PayPal), SMS services (Twilio), and cloud storage solutions
- Optimized database performance, reducing query times by 40% through strategic indexing and Redis caching implementation
- Mentored junior developers and conducted code reviews, resulting in 25% reduction in production bugs
- Led migration of legacy systems to modern architectures using Docker containerization and Kubernetes orchestration

Web Developer

Gravity Real Estate | Abu Dhabi, UAE | Jan 2023 – Nov 2023

- Developed comprehensive real estate management system with property listing, booking system, and CRM features
- Built responsive front-end interfaces using React.js with Redux state management and server-side rendering with Next.js
- Implemented RESTful APIs with Node.js and Express.js featuring role-based authentication and real-time notifications
- Integrated Google Maps API for property visualization with geofencing and proximity-based search functionality
- Optimized application performance through code splitting and CDN caching, improving page load times by 60%

CORE TECHNICAL SKILLS

Python (5+ Years) PHP Laravel Odoo ERP Django JavaScript React.js
Node.js PostgreSQL MySQL MongoDB Docker AWS REST APIs
Git HTML5/CSS3

PROFESSIONAL EXPERIENCE (CONTINUED)

Full Stack Web Developer

Mamati Ladies Salon | Abu Dhabi, UAE | Feb 2022 – Dec 2022

- Developed complete salon management system with appointment scheduling, inventory management, and billing system
- Created responsive UI using Vue.js with Vuex state management and implemented reusable component library
- Built REST API with Laravel backend and MySQL database, implementing queued jobs for email processing and report generation
- Implemented real-time notifications for appointment reminders using WebSockets with automated SMS and email confirmations
- Integrated Stripe payment gateway for online booking with PCI-compliant payment processing and split payment functionality
- Developed comprehensive admin dashboard with real-time analytics, revenue tracking, and customer retention metrics
- Reduced appointment no-shows by 35% through automated reminder system

ODOO DEVELOPMENT EXPERTISE

Specialized in Odoo ERP development with extensive experience in customization, module development, and implementation.

Odoo Module Development

Sales Module Inventory Module Accounting Module
CRM Module HR Module Purchase Module

Customization & Integration

- Custom workflow development for business processes
- QWeb report design and customization
- API integration with third-party systems
- Security and access control configuration
- Data migration from legacy systems

Technical Skills

Odoo 13-16 Python Odoo API XML Views ORM Development
Workflow Engine Security Rules Report Designer Web Controllers

Additional Experience

Freelance Web Developer | Remote Projects | 2019 – 2022

- Developed custom WordPress themes and plugins for various clients
- Built e-commerce websites using WooCommerce and Shopify with custom payment gateways
- Created responsive websites with HTML5, CSS3, JavaScript, and Bootstrap
- Implemented SEO best practices improving organic traffic by 40% for client websites
- Managed client relationships and project timelines, delivering 30+ projects with 95% satisfaction rate

PROJECT PORTFOLIO HIGHLIGHTS

Restaurant Management System with POS Integration

Final year project featuring real-time analytics dashboard, inventory management, and POS system. Built with Python, Django, and React.js.

Real Estate CRM & Booking System

Comprehensive system with property listings, booking management, CRM features, and analytics. Built with Laravel, React.js, and MySQL.

Salon Management System

Full-stack application for appointment scheduling, inventory tracking, and customer management. Built with Django, React.js, and PostgreSQL.

Odoo ERP Customization for Retail Business

Customized Odoo modules for inventory, sales, and accounting, improving operational efficiency by 35% for client businesses.

PROBLEM-SOLVING & TECHNICAL CAPABILITIES

- Performance Optimization:** Implemented caching strategies that reduced page load times by 50% across multiple projects
- Database Efficiency:** Optimized SQL queries and database indexing, improving query performance by 40%
- System Integration:** Successfully integrated multiple third-party APIs including payment gateways, SMS services, and cloud storage
- Legacy Migration:** Led migration projects from legacy systems to modern architectures with minimal downtime
- Security Implementation:** Implemented comprehensive security measures including JWT authentication, OAuth, and protection against common vulnerabilities
- Team Leadership:** Mentored junior developers and established coding standards that improved code quality by 30%

PROFESSIONAL DEVELOPMENT

- Continuous Learning:** Regularly update skills through online courses, technical blogs, and industry publications
- Open Source Contributions:** Active contributor to open-source projects on GitHub
- Technical Writing:** Maintain professional blog with tutorials and industry insights
- Networking:** Active member of developer communities on LinkedIn and professional networks

CAREER OBJECTIVE

Seeking a challenging Full Stack Developer position in a progressive organization where I can leverage my 5+ years of experience in web development and Odoo implementation, contribute to innovative projects, and grow professionally while delivering high-quality software solutions.
